Fixing key for to screw A-Blen \varnothing 100 bollard.

Ref. LLBLENT

A-BLEN DT BOLLARDS ADVANTAGES:

-  Memory bollard; in case of impact, it returns to its original shape and position.
-  100 % recyclable.
-  Not painted. No rust. Maintenance-free.
-  Excellent impact resistance and flexibility on a wide range of temperatures.
-  High resistance to many solvents, oils and greases.
-  High resistance to abrasion.
-  Pleasant to touch.
-  Aesthetically identical to metal bollards.
-  Double milling and Level 2 reflective tape, improving the visibility of the bollard.

EASY INSTALLATION:

1- Make a hole in the ground in order to place the anchorage.

2- Clean the hole once it is done and fill it with Epoxi resin.

3- Introduce the anchorage in the hole and wait until it gets dry.

4- Screw the bollard manually.

5- Finish screwing the bollard with the help of the optional key.

The properties of this material allow that in case of impact, the bollard comes back to its original shape and position. They don't break, they don't get dented and they don't oxidize.
